A business licence is required to own or operate a business in Kelowna

Businesses big and small require a licence to operate in Kelowna. Businesses may include retail and commercial establishments, management and professional firms, home-based businesses, bed and breakfasts, taxi companies, and mobile food vendors.

Licences must be displayed prominently in every place of business. Operating a business without a licence can result in compliance action and fines.

Business licences must be renewed annually by January 15

Licences must be renewed annually between December 1 and January 15 (or the next business day when the date falls on a weekend).

Late payment fees of \$25 apply when a business licence is renewed past the deadline.
