

City of Kelowna Water Utility 2025 Plant Rebate Application

Please check one of the following This rebate program was an incentive to get me to purchase drought tolerant plant material, which I wouldn't have done otherwise.

OR I was planning to purchase drought tolerant plant material, even without the rebate.

1. Eligibility

Only commercial or residential properties connected to the City of Kelowna Water Utility system and Glenmore Ellison Irrigation District area are eligible for this rebate. Properties serviced by private wells or other water purveyors (Rutland Water Works, Black Mountain Irrigation District) do not qualify. Applications will be accepted until October 31, 2025.

Applicants must have purchased and installed drought tolerant plant material from the Make Water Work plant database (www.makewaterwork.ca/plants). There is a maximum of one (1) rebate per address. Total rebate value is 50 per cent of the purchase price up to a maximum of \$100 for single family residential and \$300 for a strata complex.

Applicants must submit a copy of the receipt(s) indicating purchase before October 31, 2025, and must attach a copy of a Kelowna Water Utility bill that clearly shows the property address, account number, and is dated within the past six months. Applicants must allow a Water Smart representative to complete an onsite visit to verify installation prior to receiving the rebate.

Be sure to attach all required documents. Rebates will be issued to registered owners only.

2. Applicant

Name of Registered Property Owner

Mailing Address

Postal Code

Telephone

Email

3. Address of Installation

Same as above or

Address

City

Postal Code

4. Product Information

Plants purchased from

Total cost

Purchase Date(s)

Installation Date(s)

List plants purchased below (receipts may not clearly show plant types. Use additional pages if required:

I have attached the following REQUIRED documents:
